## 1 Introduction

This description details what information the State Treasury has in its possession for the performance of the agency's tasks. The description is based on section 28 of the [Act on Information Management in Public Administration](#).

The purpose of the description is to assist individuals and communities in submitting information requests to the State Treasury. An information request is a request for concerning an authority's document(s) in which the applicant requests information on the authority's document(s). The request may concern an individual piece of information/document, a document consisting of information from different sources, or more extensive official material.

As laid down in section 13 of the Act on the Openness of Government Activities (621/1999), a request for information submitted to the State Treasury must be set out in sufficient detail. Based on a well set out request, the State Treasury can determine the information or document the request concerns. The purpose of this description is to assist the person submitting an information request to set out the necessary details for the request.

Information and investigation requested addressed to the State Treasury must be submitted in writing by email to [registry@statetreasury.fi](mailto:registry@statetreasury.fi) or by post to the State Treasury, P.O. Box 14, 00054 State Treasury.

A request to access your personal data must be submitted by sending a right of access form by post to the address mentioned above. For now, the State Treasury does accept access requests for personal data by email.

After receiving the request, the State Treasury will process the right of access request in accordance with currently valid legislation and respond to the request.

## 2 Cases recorded in the State Treasury's case register

The State Treasury maintains a case register on the cases that are pending and those that have already been processed. Information on the case, its processing and its related documents is recorded in the case register. Case refers to one event, for example one case of processing compensation for occupational accidents. One case may include several documents.

The tables on the following pages describe the databases that are included in the State Treasury's case register and from which the State Treasury can be requested to provide information. The databases are listed in the tables according to the administrative sectors at the State Treasury. The breakdown of sectors is based on the Agency's organisational structure (see figure below).

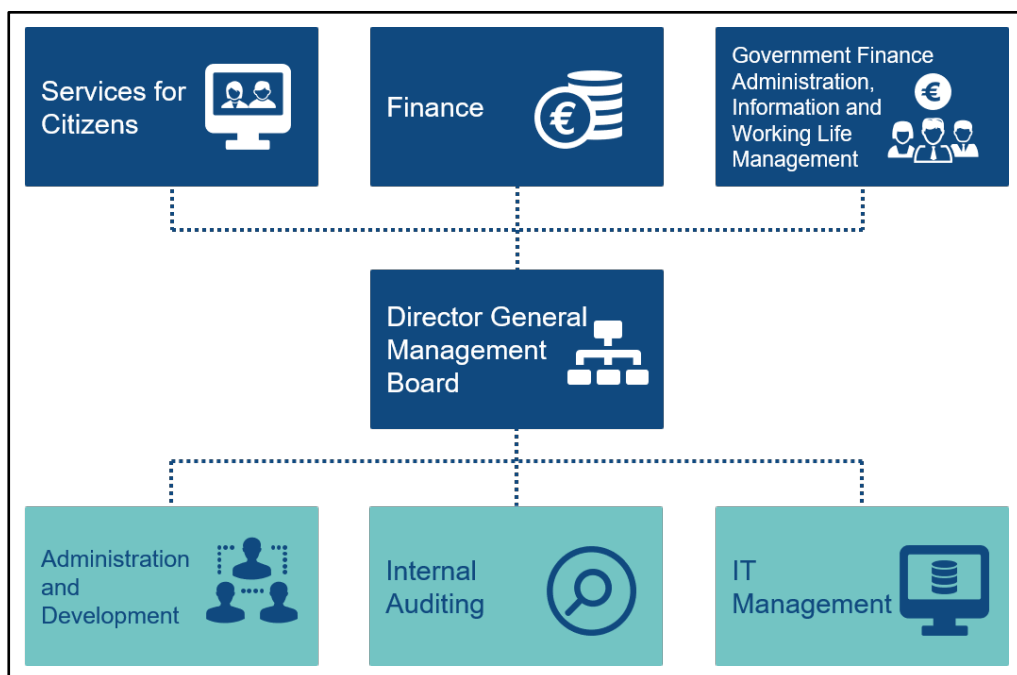

Image: State Treasury organisational structure

The State Treasury's electronic case register is maintained in the case management system. It contains data from the following databases: Government lending, state compensation, state lobbying, development of working life under state employment, administration of agency, development of agency operations and information management of the agency. The use of the electronic case register is continuously expanding at the State Treasury.

Search criteria in the electronic case register include:

1. Unique information on the case, such as record, loan or damage number,
2. Contact details of the case or document, such as the name of the sender, recipient or processor (person or organisation),
3. The date of the case or document, such as the date on which a document's processing began or when the document was received or sent, and
4. Factors related to the content of the case or document, such as the type of compensation, type of loan, title of the document.

### 3 State Treasury databases

#### 3.1 Services for citizens

##### 3.1.1 State claim for damages cases

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Compensation for legal costs to those employed by the State</b>	Information on events leading to damage, person's identification and contact details, employer information, compensation information, payment information, information on appeal	Claim number, name, personal identity code, employer	Damage compensation system, State Treasury paper archive	No
<b>Compensation for predator-caused damages</b>	Information on events leading to damage, damage group (personal injury or vehicle damage, compensation was paid for vehicle damage until 30 November 2009), predator species, identification and contact details for the victim and the beneficiary, compensation information, payment information, information on appeal	Claim number, name, personal identity code, date of damage, damage group (personal injury or vehicle damage, compensation paid for vehicle damage until 30 November 2009), predator species.	Damage compensation system, State Treasury paper archive	No
<b>Crime damages</b>	Information on events leading to damage, identification and contact details for persons involved, information on accident om-	Claim number, name, personal identity code, date of damage, information on court decision, offence classification	Case management system, damage compensation system	No

	budsman, compensation information, payment information, information on appeal, information on court decision			
--	--	--	--	--

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Benefit equivalent to group life insurance</b>	Information on the primary beneficiary, beneficiary identification and contact details, employer information, compensation information, payment information, information on appeal	Claim number, name, personal identity code, employer	Damage compensation system, State Treasury paper archive	No
<b>Military injuries and service-related illnesses</b>	Information on events leading to damage, personal identification and contact details, compensation information, payment information, information on appeal	Claim number, name, personal identity code, date of damage	Case management system, damage compensation system	No
<b>Wrongfully imprisoned</b>	Information on events leading to damage, personal identification and contact details, information on accident ombudsman, compensation information, payment information, information on appeal	Claim number, name, personal identity code	Damage compensation system, State Treasury paper archive	No
<b>Accidents and service-related illness when engaged in crisis management duties</b>	Information on events leading to damage, personal identification and contact details, compensation information, payment information, information on appeal	Claim number, name, personal identity code, date of damage, place damage occurred, diagnosis	Case management system, damage compensation system	No
<b>Accidents at work and occupational diseases</b>	Information on events leading to damage, person's identification and contact details,	Claim number, name, personal identity code, date of accident, employer	Case management system, damage compensation system	No

	employer information, compensation information, payment information, information on appeal			
<b>Accidents caused by state-owned vehicles</b>	Information on events leading to damage, person's identification and contact details, employer information, compensation information, payment information, information on appeal	Claim number, name, personal identity code, date of accident, employer	Damage compensation system, State Treasury paper archive	No

<b>Database</b>	<b>Data by group</b>	<b>Examples of search criteria</b>	<b>Information systems related to the materials</b>	<b>Availability via a technical Interface (y/n)</b>
<b>State travel protection</b>	Information on events leading to damage, person's identification and contact details, employer information, compensation information, payment information, information on appeal	Claim number, name, personal identity code, date of accident, employer	Case management system, damage compensation system	No
<b>State travel protection, notification of invited persons</b>	Identification and contact details of the person invited, contact details of the person submitting the invitation, invitation time, destination country.	Date of arrival of the notification, organisation notifying of the invitation, invitation time, country of destination.	Damage compensation system	No

<b>Compensation based on state liability</b>	Identification and contact details for the person claiming compensation, information on events leading to damage, compensation information, payment information, information on appeal	Claim number, name, personal identity code, date of damage	Damage compensation system, State Treasury paper archive	No
<b>Damage to property caused during official duties or work tasks</b>	Information on events leading to damage, person's identification and contact details, employer information, compensation information, payment information, information on appeal	Claim number, name, personal identity code, date of accident, employer	Damage compensation system, State Treasury paper archive	No

## 3.1.2 Compensation for disabled veterans and veterans

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Rehabilitation for those who have served in certain duties related to wars</b>	Identification and contact details for the applicant, application information, information on decision, payment information, information on appeal	Applicant's name, personal identity code	Application and decision register, State Treasury paper archive, central government joint order and invoice processing system	No
<b>Funding of municipal outpatient services for front-line veterans</b>	Appropriations for services and their distribution, the previous year's unused appropriations and their redistribution, the number of front-line veterans living in municipalities, contact information for municipalities / joint municipal authorities, annual reports submitted by municipalities / joint municipal authorities on paid appropriations.	Municipality/joint municipal authority, service type, time period	Compensation processing system, State Treasury paper archive, central government shared order and invoice processing system	No
<b>Funding for the rehabilitation of front-line veterans</b>	Appropriations for rehabilitation and their distribution, the previous year's unused appropriations and their redistribution, the number of front-line veterans living in municipalities, contact information for municipalities / joint municipal authorities, annual reports submitted by municipalities / joint municipal authorities on paid appropriations.	Municipality/joint municipal authority, form of rehabilitation, time period	Compensation processing system, State Treasury paper archive, central government shared order and invoice processing system	No

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Compensation for disabled veterans</b>	Identification and contact details for compensation recipient, information on paid and rejected compensation, identification and contact details for family members entitled to compensation, information on other interested parties (guardians, municipalities, hospitals, doctors, pharmacists, companies that have sent invoices, associations, etc.)	Claim number, name, personal identity code	Compensation system for military disability, State Treasury paper archive	No
<b>Funding of municipal outpatient services for disabled veterans</b>	Appropriations for outpatient services and their distribution, the previous year's unused appropriations and their redistribution, the number of disabled veterans living in municipalities, addresses and contact information for municipalities / joint municipal authorities, annual reports submitted by municipalities / joint municipal authorities on paid appropriations.	Municipality/joint municipal authority, service type, time period	Compensation processing system, State Treasury paper archive, central government shared order and invoice processing system	No
<b>Rehabilitation for spouses and widows of disabled veterans and widows of fallen soldiers</b>	Identification and contact details for the applicant, application information, information on decision, payment information, information on appeal	Applicant's name, personal identity code	Application and decision register, State Treasury paper archive, central government joint order and invoice processing system	No
<b>Rehabilitation of veterans living abroad</b>	Identification and contact details for the applicant, application information, information on decision, payment information, information on appeal	Applicant's name, personal identity code	Application and decision register, State Treasury paper archive, central government joint order and invoice processing system	No

## 3.1.3 Representation of government interests

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Penalty fee for unpaid motor vehicle liability insurance</b>	Identification and contact details of the person or company, information on negligence and information on penalty fines for negligence	Name, personal identity code or business ID of the owner or party in possession of, vehicle registration number	Case management system, damage compensation system	No
<b>Exemption issues</b>	Identification and contact details for the applicant, authority recovering the payment, the amount of exemption claimed, information on the decision, case-specific additional reports, information on appeal	Name, personal identity code, recovering authority	Case management system	No
<b>Compensation for delays in court proceedings</b>	Identification and contact details of persons and companies receiving compensation, contact details of agents, details of court decisions, information on compensation	Name, personal identity code, business ID, identification details on the court's decision	Case management system, the central government's shared order and invoice processing system	No
<b>Inheritance matters, estates of people who have died without heirs</b>	Identification details on the deceased, information on the person reporting the estate, information on the estate administrator, information on the decision on distribution of the estate, information on appeal	Name, personal identity code of the deceased person, date of death, last place of residence, municipality applying for property	Case management system	No

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Inheritance matters, testaments of people who have died without heirs</b>	Identification details on the deceased, information on the person reporting the testament (private persons and associations), information on the approval of the testament	Name and personal identity code of the deceased, date of death, last place of residence	Case management system	No
<b>Penalty fee for neglecting the payment of accident insurance</b>	Identification details on employer (person or company or association), information on negligence, information on penalty payments for negligence	Employer's personal identity code or business ID, sector	Case management system, damage compensation system	No
<b>Penalty payments for neglecting pension insurance contributions</b>	Identification details on party obligated to take out insurance (person or company or association), information on negligence, information on penalty fee for neglecting to pay	Personal identity code or business ID of party obligated to take out insurance	Case management system	No
<b>Patient insurance negligence fees</b>	Identification details on party obligated to take out insurance (person or company or association), information on negligence, information on penalty fee for neglecting to pay	Personal identity code or business ID of party obligated to take out insurance	Case management system	No

## 3.1.4 Other information resources used by public services

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Recordings of Services for Citizens division customer service phone calls</b>	Calls made to recordable phone numbers as well as calls made by the official to customers, call start and end time, caller's number, number called, official's name and phone number.	Call start and end time, caller's number, number called, official's name and phone number.	Elisa Orange Contact	No
<b>Services for Citizens division statistics and reports</b>	Number of applications, number of decisions, processing times, submitted appeals, types of decisions, compensations paid	Compensation/ decision type, time period	The division's reporting databases, Power BI reporting	No, but some of the information is published on the State Treasury website at <a href="http://valtiokonttori.fi">valtiokonttori.fi</a>

## 3.2 Finance

### 3.2.1 State financial management

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Activities related to funds</b>	Financial transactions, operational guidelines, agreements, and procedures as well as account numbers related to the National Nuclear Waste Management Fund, Intervention Fund of Agriculture, National Housing Fund and Financial Stability Fund	Transaction number, date of trade, value date, maturity date, counterparty, portfolio, instrument	Treasury Information System	No
<b>Financial market data</b>	Including interest and exchange rates	Quotation date, recording date	Market information service, Treasury information system	No
<b>Funding of Senate Properties</b>	Financial transactions, operational guidelines, agreements, and procedures as well as account numbers	Transaction number, date of trade, value date, maturity date, counterparty, portfolio, instrument	Treasury Information System	No
<b>Central government revenue and expenditure forecasts and actual revenue and expenditure</b>	Central government revenue and expenditure forecasts and actual revenue and expenditure	Cash flow date, accounting unit, revenue or expense group	Cash management system, Treasury Information System	No
<b>Asset management framework agreements</b>	ISDA, CSA and GMRA agreements	Counterparty	Securities management system	No

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Financial Management Contact Register</b>	Contact details for the representatives of contractual partners	Name, email address, employer name	Treasury information system, securities management system	No
<b>Debt management database</b>	Under the line, operational guidelines, agreements, and procedures	Transaction number, date of trade, value date, maturity date, counterparty, portfolio, instrument	Treasury information system, securities management system, monitoring system for serial bonds in secondary market trade	No
<b>Export financing database</b>	Financial transactions, operational guidelines, agreements, and procedures	Transaction number, export credit reference number, date of trade, value date, maturity date, counterparty, portfolio, instrument	Securities management system, Treasury Information System	No

## 3.2.2 State lending

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Direct loans database</b>	The identification and contact details of borrowers, potential guardians, loan managers and other legal representatives, information related to the debtor status, information related to the loan, information related to the loan collateral, payment default entries, follow-up data from Suomen asiakastieto Oy and additional information requested from customers on a case-by-case basis.	Loan number, name, personal identity code, business ID, municipality of residence, subject of collateral	Loan management system, customer information system for the State Treasury's Finance Division, case management system, securities management system, electronic customer interface for loan customers	No
<b>Database for interest subsidies and state guarantees</b>	Identification and contact details of interest subsidy loan recipients and State guarantee recipients potential guardians, loan managers and other legal representatives, information related to the debtor status, information related to the loan, State-paid interest subsidies and guarantee commissions received by the State, information related to the loan securities, payment default entries, follow-up data from Suomen asiakastieto Oy and additional information requested from customers on a case-by-case basis.	Loan number, name, personal identity code, business ID, municipality of residence, subject of collateral	Interest subsidy and state guarantee management system, loan management system, customer information system for the State Treasury's Finance Division, case management system, securities management system	No
<b>Reporting information on direct loans, interest subsidies and guarantees</b>	Statistical data on direct loans, ASP and interest subsidy loans and state guarantees	Reporting period (interval)	Database for the reporting of loaning, SAP Business Objects reporting system	No, but some of the information is published on the State Treasury website at <a href="http://valtiokonttori.fi">valtiokonttori.fi</a>

### 3.3 T3 - Finance, information and working life

#### 3.3.1 Central government finances, payment transactions and procurements

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Procurement services database</b>	Agency assessments on the organisation, competence and planning of their own procurement activities.	Agency, time period	Query system	No
<b>Accounting unit banking agreement database</b>	Agreements between accounting units and banks as well as data on changes to agreements	Accounting unit (agency, or other similar.), agreement type	Payment transfer banks' contractual management systems	No
<b>Database for the Department of Accounting and payment transfers regulations and instructions</b>	Regulations and instructions issued by the State Treasury (incl. revoked)	Record number, guideline date, title or part of title, category, document type	Case management system, valtiokonttori.fi website, File management system	Regulations and instructions will be published <a href="#">on the State Treasury website</a>
<b>Suomi.fi Payment service usage data</b>	Service fees charged by the supplier, information on customer organisations using the service and the volume of payment transactions per customer (agencies, municipalities, educational institutions, etc.)	Reporting period, customer organisation	File management system, service provider's trading portal	No
<b>Data on the volume of invoices delivered by the State</b>	Number of delivered invoices (sales and purchase invoices) on a monthly basis, volume of sales and purchase invoices of accounting units (pcs and €). Information on the invoice delivery channels used (Mobile Pay, OmaPosti, suomi.fi Messages, consumer e-invoices, paper invoices)	Reporting month, accounting unit (agency etc.), invoice delivery channel	File Management System	No, with the exception of the electrification rate of purchase and sales invoices, the statistics for which are published on the valtiokonttori.fi website.

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Volume data on central government payment transactions and service charges</b>	Actual volume of payment transactions (number and euro) by accounting unit. Service fees charged listed by service.	Reporting month, accounting unit (agency etc.), service type	File Management System	No
<b>List of Government bank accounts</b>	Information on the income and expense accounts of the accounting units at payment transfer banks.	Accounting unit (agency, etc.), bank account number	File Management System	No
<b>Breakdown of State budget accounts</b>	The database contains a breakdown of State budget accounts from 2013 onward.	Account breakdown period of validity, year	System for drawing up and maintaining the budget account breakdown	No
<b>Mandate monitoring database</b>	Number and use of mandates and the expenses resulting from their use during the budget and in coming years. The information can be grouped by budget accounting, mandate type, accounting unit organisation and type of appropriation.	Mandate type, accounting unit (agency etc.), appropriation type	Mandate monitoring system	No

## 3.3.2 Information management and analytics

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Analysis service customer register</b>	Identification and contact details for the customers of the analysis service	Customer organisation	Task Manager software	No
<b>Local government finances database</b>	Data on local government budgets and plans, financial performance and financial statements by service category.	Municipality, reporting period	Municipal economy data service, exploreadministration.fi website	The information is accessible to the public on the exploreadministration.fi website.
<b>Exploreadministration.fi / Tietokiri reporting platform</b>	Information on central government finances, personnel, performance, premises and procurements. Financial data for municipalities and joint municipal authorities. Regional development and demographic data.	Administrative sector, accounting unit, municipality, joint municipal authority, reporting period, county, sub-region	Public administration reporting service, exploreadministration.fi website	The information is published on the exploreadministration.fi website. In addition, the central government's financial and personnel information is available through an application programme interface.
<b>Database for the Tietokiri analysis platform</b>	Information on planning and monitoring of operations, financial and human resources management, common basic information technology, procurement management, facility management, centralised training services, project management and organisational structure related to Government agencies and institutions. Analysis of databases based on customer-specific assignments	Administrative sector, accounting unit, customer organisation	Tietokiri analysis platform	No

## 3.3.3 Development of the working life in state employment

Databank	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Kaiku project register</b>	Name, contact information, project and its details	Administrative branch, agency, start year, end year	valtiolla.fi website, file management system	Information on Kaiku projects is published on the valtiolla.fi website.
<b>Members of the Kaiku network and cooperation group</b>	The person's first name, last name and organisation.	First name, last name, organisation	valtiokonttori.fi website	Information on the members of the Kaiku network and cooperation group is published valtiolla.fi website.

## 3.4 Administrative Affairs and Development

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Handi Archive</b>	Orders exported to the Handi system, budgets and instalment plans related to procurement agreements on a case-by-case basis, invoices for procurements (PDF), invoices for gratuitous expenses (Services for Citizens division). Information on the check and approval rounds for invoices as well as accounting information. Sales invoices and invoicing reports and interest invoices , interest invoice reports, depreciation, reference payments, manual receipts, crediting and debiting of receipts related to accounts receivable management.	CaselD for purchase invoices, invoice number, supplier number, supplier name, as well as invoice recipient and due date for sales invoices.	The central government's shared order and invoice processing system	No, but information on procurements by the State Treasury is published on the exploreadministration.fi and tutkimushankintoja.fi websites
<b>Accounting records</b>	Accounting transactions (income, expenditure, corrective vouchers), fixed asset accounting data (investments that are activated on the balance sheet and recorded as depreciation in the coming years)	Expenditure type, income type, year	Shared system solution for state financial management and human resources - Kieku	No, but information on income and expenditure for account groups is published on the exploreadministration.fi website.
<b>Project management guidelines</b>	The Agency's internal guidelines for successful project implementation	Name of guideline	State Treasury intranet Mesta, file management system	No
<b>Information on Valtio Expo exhibitors</b>	Exhibitor's name, logo and introduction	Exhibitor's name	valtioexpo.fi website	The information is published on the valtioexpo.fi website.
<b>Persons who have signed up for Valtio Expo</b>	Name, contact information organisation	Name, organisation	Valtionexpo.fi website, event signup system	No

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>State Treasury Customer Register</b>	Contact details of subscribers to publications and bulletins, contact details for public administration organisation contact persons	Name, organization	Electronic customer register	No
<b>State Treasury personnel database</b>	Information on the following persons necessary for the performance of employer duties: 1. State Treasury staff members, 2. People working in the State Treasury's premises, 3. Persons who have participated in recruitments. The database also contains information on reimburse of travel costs and other expenses for agency staff.	Name, personal identity code	Shared system solution for state financial management and human resources - Kieku, travel costs and expenses management system, State Treasury paper archive	No
<b>State Treasury development portfolio</b>	Project descriptions and budget information, information on responsible persons, project progress reports	Project period, name of responsible person, State Treasury organisational unit (sector)	Public administration's joint project portfolio management service (Digital and Population Data Services Agency)	No
<b>Persons signed up for State Treasury events</b>	Name, contact information, organisation	Name, organisation	Event signup system	No
<b>Database on State Treasury implemented competitive tendering</b>	Invitations to tender, tenders, material related to the procurement decisions, procurement decisions, procurement agreements.	Record number, name of procurement matter	Tendering system, file management system, case management system	No

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Website user monitoring: valtiokonttori.fi, valtioexpo.fi, exploreadministration.fi, tietokiri.fi, valtiolla.fi, valtionvelka.fi</b>	<p>The user's IP address without identifying information (= anonymised IP). The user is able to select the 'do not track' setting on their browser, in which case Google Analytics does not collect even the above data. Using the IP address, data is collected – for the purpose of visitor monitoring – on the actions carried out by the user on the webpages. This data includes, for example, navigation within the pages, clicking on links, length of visit and information about where the visitor connected to the service from and where they transferred to afterwards.</p>	<p>Reporting period, website to be reported</p>	<p>Google Analytics service, treasury.fi, valtioexpo.fi, exploreadministration.fi, tietokiri.fi, valtiolla.fi, valtionvelka.fi websites</p>	<p>No</p>

## 3.5 ICT Administration

Database	Data by group	Examples of search criteria	Information systems related to the materials	Availability via a technical Interface (y/n)
<b>Architecture descriptions</b>	Descriptions on State Treasury's services, operating processes, databases and information and system architecture	State Treasury organisational unit (sector), name of information system	QPR Architecture Bank	No, but logged-in users can view descriptions published in the architecture bank via the <a href="http://www.arkkitehtuuripankki.fi">www.arkkitehtuuripankki.fi</a> website.
<b>Information system list</b>	Information on the information systems currently/previously used by the State Treasury	Person responsible for the information system, responsible unit (sector), life cycle status	Task Manager software	No
<b>Services, applications and tools used by the State Treasury</b>	Office applications and electronic services	Name of the application or service	Task Manager software	No
<b>State Treasury Database List</b>	Information on the databases used by the State Treasury	Database name, information system with which it is associated	Task Manager software	No
